

## PSU BOOTS

Uniform stores have recently been issuing "Magnum" boots to officers as part of their PSU kit. SWPF have been made aware of some issues with these particular brand of PSU boots. Some officers have stated that they are heavy and cumbersome especially when running in them and not particularly well fitting.

This was brought up recently at the quarterly meeting of the Uniform and Equipment User Group and Uniform Stores have informed SWPF that those officers who are having issues with this particular make of boot may be able to swap them for one of the other five brands on the approved list.

There is a wait of a few weeks and Officers are requested to get in touch with uniform stores who will be able to assist.

Please let the federation know how this process works if you get in touch with Uniform Stores, good or bad and please let us know if you are having any issues with any other piece of uniform or equipment and we can make the necessary representations.
